

**Производствена гама CNC рутери и лазерни гравири от JINKA - Китай**

**CNC рутери с автоматична смяна на инструмента**

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	ATC-1325H	Working size:1300x2500x380mm Spindle: 7.5KW Italy HSD ATC spindle ATC quantity: ATC 8 (Round type) vaccum system with water pump or air pump	<ul style="list-style-type: none"> <li>◆ Adopt Japan yaskawa servo motor Panasonic servo with fast speed and good stability</li> <li>◆ Equipped with round type automatic tool changing system .The exchange time is only 8 seconds</li> <li>◆ Configured with lubrication oil system, which is in favor of the user's maintenance of machine and greatly extend rail's lifetime</li> <li>◆ . The machine is welded with seamless steel structure, good rigidity , non-deformation.</li> <li>◆ Imported square rail and two line sliding track ensure heavy loading, stable working , high precision and long lifetime.</li> <li>◆ .Taiwan control system based on windows platform can upgrade the functions infinitely. Anti-interference design of the hard and soft ware synchronistically ensure the reliable operation.</li> <li>Advance 3D space curve prediction algorithm can ensure the evenness of polyline and the speed and precision of curve lines.</li> <li>Advanced file pretreatment function can correct the error in the files</li> <li>◆ Compatible with any advanced software, such as Type3, Artcam, CAXA, UG, Pro-E, Mastercam, Ucamcam V8 and so</li> </ul>	solid wooden board,MDF board, PVC board,insulation board ,acylic board,marble,artificial stone ,ox-horn ,crystal,cooper,aluminium,steel and synthetic metals etc	360X205X166CM	1500KG
	ATC-1325	Working size:1300x2500x380mm Spindle: 5KW water-cooling ATC spindle ATC quantity: ATC 6 (linear type) vaccum system with water pump or air pump	<ul style="list-style-type: none"> <li>◆.Taiwan control system based on windows platform can upgrade the functions infinitely. Anti-interference design of the hard and soft ware synchronistically ensure the reliable operation.</li> <li>Advance 3D space curve prediction algorithm can ensure the evenness of polyline and the speed and precision of curve lines.</li> <li>Advanced file pretreatment function can correct the error in the files</li> <li>◆ Compatible with any advanced software, such as Type3, Artcam, CAXA, UG, Pro-E, Mastercam, Ucamcam V8 and so</li> </ul>		360X205X166CM	1550KG

**CNC рутери за промишлено приложение**

	ZMD1313	Working size:1300x1300x160mm Spindle: 3KW	<ul style="list-style-type: none"> <li>◆adopt bridge square steel and integral iron casting machine body with aerometal aluminium table. non-deformation◆configured with international advanced high precision linear rail(PMI or HIWIN),more stable movement ,long lifetime using ◆Driver device with high subdivision, running at high speed of 35000mm/min, can realize the synchronization of the curve line and straight line processing ◆configured with splendid control cabinet , operate easily ◆ adopt DSP controlling system with 128M, can work without computer and transmit files directly from USB flash disk with large capacity and large LCD display ◆own functions of restoring from power off and saving from break point. and function of automatic tool sensor etc, support 9 coordinates positioning, user friendly designing◆compatible with Type3,ArtCam ,Proe,UG and other software of CAD/CAM ◆standard configuration of original English Ucamcam V8 software ◆support semi-automatic oil lubrication system,can maitain easily ◆optional device of Panasonic servo system from Japan, vacuum system , Italy HSD air-cooling system , dust collector</li> </ul>	solid wooden board,MDF board, PVC board,insulation board ,acylic board,marble,artificial stone ,ox-horn ,crystal,cooper,aluminium,steel and synthetic metals etc	201x151x190 CM	700kg
	ZMD1325	Working size:1300x2500x160mm Spindle: 3KW			250x151x190 CM	1300kg
	ZMD1530	Working size:1500x3000x160mm Spindle: 4.5KW			/	/
	ZMD2040	Working size:2000x4000x160mm Spindle: 4.5KW			430x270x157CM	1600

### CNC рутери Cruiser за промишлено приложение с усилена конструкция

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	ZMD1313B	Working size:1300x1300x200mm Spindle: 3KW	<p>◆adopt DSP controlling system with 128M, can work without computer and transmit files directly from USB flash disk with large capacity and large LCD display ◆own functions of restoring from power off and saving from break point. and function of automatic tool sensor etc, support 9 coordinates positioning, user friendly designing ◆ adopt high pressure AC power supply driver. much stronger movement,low noisy,high speed ,high precision positioning,support high running speed of 45000mm/min ◆adopt the bridge industrial structure with thicken aerometal aluminium table , tempering treatment ensure little deformation ,rigidity and strong bearing capacity ◆configured with international advanced high precision linear rail(PMI or HIWIN),more stable movement ,long lifetime using ◆compatible with Type3,ArtCam,Proe,UG and other software of CAD/CAM ◆Equipped with splendid controlling cabinet. more safe and more convenient to maintain ◆standard configuration of original English Ucamcam V8 software ◆support semi-automatic oil lubrication system ,maintain easily ◆dust-proof on X,Y,Z axis makes more save ,durable and maintain easily ◆optional device of Panasonic servo system from Japan ,vacuum system , Italy HSD air-cooling system , dust collector</p>	solid wooden board,MDF board, PVC board,insulation board ,acylic board,marble,artificial stone ,ox-horn,crystal,cooper,aluminium,steel and synthetic metals etc	190x200x175 CM	1200kg
	ZMD1325B	Working size:1300x2500x200mm Spindle: 3KW			210x340x175 CM	1400kg
	ZMD1530B	Working size:1500x3000x200mm Spindle: 4.5KW			/	/
	ZMD2040B	Working size:2000x4000x200mm Spindle: 4.5KW			430x270x157CM	1600

### CNC рутери многошпинделни за скоростна обработка на едновременно на много детайли

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	ZMD2015B	Working size:2000x1500x200mm Spindle:1.5KW x 8	<p>◆adopt integral iron casting machine body with thicken aerometal aluminium table. non-deformation◆configured with international advanced high precision linear rail(PMI or HIWIN),more stable movement ,long lifetime using ◆Driver device with high subdivision, running at high speed of 35000mm/min, can realize the synchronization of the curve line and straight line processing ◆configured with splendid control cabinet , operate easily ◆ adopt DSP controlling system with 128M, can work without computer and transmit files directly from USB flash disk with large capacity and large LCD display ◆own functions of restoring from power off and saving from break point. and function of automatic tool sensor etc, support 9 coordinates positioning, user friendly designing◆compatible with Type3,ArtCam ,Proe,UG and other software of CAD/CAM ◆standard configuration of original English Ucamcam V8 software ◆support semi-automatic oil lubrication system,can maintain easily ◆dust-proof on X,Y,Z axis makes more save ,durable and maintain easily◆optional device of Panasonic servo system from Japan, vacuum system , Italy HSD air-cooling system , dust collector</p>	solid wooden board,MDF board, PVC board,insulation board ,acylic board,marble,artificial stone ,ox-horn,crystal,cooper,aluminium,steel and synthetic metals etc	270x230x170 CM	1200kg
	ZMD2025B	Working size:2000x2500x200mm Spindle: 1.5KW x 8			270x340x170 CM	1300kg

## CNC рутери Neptune за рекламната промишленост

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	JK3525B	Working size:350x250x70mm Spindle: 800W	<ul style="list-style-type: none"> <li>◆ adopt DSP controlling system with 128M, can work without computer and transmit files directly from USB flash disk with large capacity and large LCD display◆own functions of restoring from power off and saving from break point. and function of automatic tool sensor etc, support 9 coordinates positioning, user friendly designing◆high-quality 800W-3KW inverter-driven constant power spindle motor cooled by water ,high efficiency</li> <li>◆adopt driver device with high subdivision ,low noisy,little trouble</li> <li>◆ casting machine body,non-deformation,good rigidity</li> <li>◆splendid machine cabinet,operate easily◆configured with high precision linear rail(AMT or HIWIN),more stable movement ,support high running speed of 14000mm/min ◆compatible with Type3,ArtCam,Proe,UG and other software of CAD/CAM</li> <li>◆standard configuration of original English Ucamcam V8 software</li> </ul>	organic glass, ABS,PVC ,MDF board,double color board ,acylic , wooden board,marble,ox-horn,aluminum plastic board,crystal,cooper,aluminium,steel and other metals etc	62x70x73/66x48x66CM	160kg
	JK6590B	Working size:6500x900x150mm Spindle: 800W			155x130x160 CM	270kg
	JK1313B	Working size:1300x1300x160mm Spindle: 1500W			186x169x141 CM	450kg
	JK1318B	Working size:1300x1800x160mm Spindle: 1500W			237x170x140 CM	590kg
	JK1325B	Working size:1300x2500x200mm Spindle:1500W			305x169x140 CM	840kg

## CNC рутери за промишлена обработка на камък

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	SD1318B	Working size:1300x1800x200mm Spindle: 3KW Motion Type: Rolling ball screw	<ul style="list-style-type: none"> <li>◆ Imported linear square rails and four-line sliding blocks ensures strong capacity, steady running, high-precision, long life span, accurate positioning</li> <li>◆ The machine is welded with seamless steel structure, good rigidity, and the bearing capacity can reach 1 ton.</li> <li>◆ Constant power spindle motor ensures strong cutting capacity and high efficiency</li> <li>◆ Compatible with any advanced CAM software, such as Type 3, Artcam, CAXA, UG, Pro-E, Mastercam, Ucamcam V8 and so on.</li> <li>◆ Bidirectional cooling system extends the tool's life span greatly</li> <li>◆ CNC controlling system has break-point memory function , which ensures the continuous work after the accident , such as the breaking of engraving tools or continuous work next day.</li> <li>◆ The machine is with low using cost, powerful function, wide application</li> </ul>	Marble ,Granite ,Blue stone , Jade, Crystal, Tombstone, Agate, Porcelain, Glass, Plastic, Chemically synthetic panels, Bamboo, Wood, Stainless steel, Iron, Copper, Aluminum, Titanium alloy	230x210x120CM	1100kg
	SD1325	Working size:1300x2500x200mm Spindle: 3KW Motion Type: Gear rack			310X210X120CM	1300kg

### Опции и екстри:

Вакуум система с ротационна помпа

Ucamcam V9 waveboard (3D)

Panasonic servo system

Водно охлаждане за шпиндела затворен кръг

Аспирационна система

Италиански шпиндел HSD с въздушно охлаждане

### CNC рутери за гравирание на матрици, сувенири и за приложение в бижутерията

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	MD3020	Working size:300x200x70mm Spindle: 800W	<ul style="list-style-type: none"> <li>◆adopt DSP controlling system with 128M, can work without computer and transmit files directly from USB flash disk with large capacity and large LCD display◆own functions of restoring from power off and saving from break point. and function of automatic tool sensor etc, support 9 coordinates positioning, user friendly designing◆overall iron casting frame with non-deformation ◆adopt advanced rolling ball screw and imported linear rail(Korea SBC) ◆compatible with Type3,ArtCam,Proe,UG and other software of CAD/CAM ◆the comprehensive and integrated controlling cabinet,splendid and operate easily</li> <li>◆standard configuration of original English Ucam V8 software</li> <li>◆adopt the reflux cooling system</li> </ul>	all kinds of the jade and stone,jewelry,marble, copper,steel and other metal etc.	65x66x48/55x41x62CM	140
	MD5040	Working size:500x400x200mm Spindle: 3KW			/	/

### CNC рутери за гравирание на ротационни детайли

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	RD3020	Working size: $\varnothing$ 80x200mm Spindle: 800W	<ul style="list-style-type: none"> <li>◆adopt DSP controlling system with 128M, can work without computer and transmit files directly from USB flash disk with large capacity and large LCD display◆own functions of restoring from power off and saving from break point. and function of automatic tool sensor etc, support 9 coordinates positioning, user friendly designing ◆adopt advanced rolling ball screw and imported linear rail(Korea SBC) ◆compatible with Type3,ArtCam,Proe,UG and other software of CAD/CAM</li> <li>◆standard configuration of original English Ucam V8 software</li> </ul>	cylinder engraving of enghardwood,marble,white marble and so on	56x62x57/45x51x66CM	140kg
	RD2010-2	Working size: $\varnothing$ 200x1000mm Spindle: 1500W x 2			200x150x125 CM	800kg
	RD2010-4	Working size: $\varnothing$ 200x1000mm Spindle: 1500W x 4			207x173x125 CM	950kg

### Лазерни гравирани

Илюстрация	Модел	Параметри	Конфигурация	Обработвани материали	Габарит на машината	Маса
	JL6090	Working size: 900x600mm Laser: 60W	<ul style="list-style-type: none"> <li>◆ With optimization of mechanical and electrical design, processing speed can be up to 2000mm/s</li> <li>◆ With powerful laser tube, can cut acrylic of 20mm thickness in one time</li> <li>◆ Equipped with the advanced controlling system , which can engrave, cut and drill on flat material and 360 degree slope</li> <li>◆ Export directly from Coreldaw,AutoCAD and so on</li> <li>◆ Equipped with imported lens ensures perfect cutting</li> </ul>	Acrylic , Wooden board , Bamboo product, Double- color sheet , Paper, Leather , Shell , Coconut shell , Oxhorn, Resin, Animal sebum, ABS sheet , Lampshade and other non metal material	175*106*100 CM	150kg
	JL1280	Working size: 1200x800mm Laser: 80W			173*138*100 CM	210kg
