

JQ1290 stone laser engraving machine

1. Parameter of JQ-1290 laser engraving machine

Model	JQ-1290
Working area	120cm*90cm / 47in*35in
Laser power	60W/80W/100W
Laser type	CO2 sealed laser tube,water-cooled
Engraving speed	0-60000mm/min (0-2362inch/min)
Laser Output	1-100%software setting
Resetting positioning accuracy	±0.01mm
Power supply	220V/50HZ , 110V/60HZ
Operating temperature	0 - 45°C
Operating humidity	5 - 95%
Min. shaping character	English 1.0 x 1.0mm
Graphic format supported	BMP, PLT, DST, DXF, AI
Software supported	CorelDraw, PhotoShop, AutoCAD,TAJIMA
Driving system	3 phases stepper motor
Equipment Dimension	175cm*131cm*107cm 69in*52in*42in
Packing Dimension	186cm*141cm*130cm 73in*56in*51in
Net Weight	400kg

2.Optional parts

- 1).Up and down work table(makes the machine worktable moves up and down automatically)
- 2).Rotary attachment.(engrave cylinders)
- 3).Red light pointer (make the laser beam visible)
- 4).USB port (make the machine work without a computer)

3.Applicabe material

acryl, perspex, glass, wood, stone, marble, gravestone, rubber, leather,fabric, paper, cltoh, dual-colour boards.etc
